The unprecedented Covid-19 pandemic has posed an enormous challenge for people, communities, governments and companies worldwide. For the projects partnered with Good Hope Volunteers, the challenge has been even bigger. Understaffed and underfunded under normal circumstances, some projects have been left with no other choice than to close, other projects have temporarily closed.

At Good Hope Volunteers, we have done our best to assist these projects to find a way through the pandemic. Many of them are now back in operation and are able to welcome international volunteers again.

Most of the projects presented in this brochure are available. Very few projects are still not able to welcome volunteers due to current regulations and are expected to be available later in 2022.

All projects have been carefully screened for their Covid-19 safety measures and protocols. Even though it is not a requirement, we strongly suggest getting fully vaccinated before travelling. Please also note that some projects are only available to volunteers who are fully vaccinated.

We have 26 years of experience in bringing young international travellers to South Africa and 12 years of experience in sending volunteers to projects. As a local provider, we pride ourselves on being involved with and knowing all our projects personally.

We look forward to getting to know you and to supporting you through this experience.

Yours sincerely,

Wolfgang Graser

Combine volunteering with a language course

When you volunteer, it is essential that you are able to communicate clearly with your supervisor, colleagues and the people you are helping. A good command of English is therefore required for all projects.

If you need to brush up on your English skills, add a language course before you start volunteering. Doing this will also give you a chance to get accustomed to the country before you start at your project.

If your level of English already meets the minimum criteria, you may want to combine an English language course

in the morning with volunteering in the afternoon. This option is available for most Cape Town based projects.

Our sister company, Good Hope Studies, operates an English language school from two campuses in Cape Town: one campus is situated in the leafy residential area of Newlands and the other is in the vibrant city centre on a pedestrian walkway.

Our school is well-known for the professional yet relaxed environment in which learning is both challenging and fun. Students from up to 50 different countries benefit from our courses each year.

Our story

In 1994, Wolfgang Graser and Alexander Kratochwil moved from their home in Vienna to the beautiful city of Cape Town. They quickly fell in love with this vibrant city and its friendly, smiling people. They first opened an English language school for foreign tourists to learn English, but soon they discovered that behind the shiny places there are enormous problems and challenges that this country faces for historic reasons. They met with organisations that assist government in the struggle for a better life and a better environment.

When you see what these organisations do, it's not difficult to feel moved and share in their desire to help. They can't solve all problems overnight, but they do make an

impact and do change people's lives on a daily basis. What they need, though, are volunteers who share their passion to help and who want to make a difference.

In 2009, we started to supply some of these organisations with international volunteers. What we specifically loved was not only seeing these organisations thrive with the volunteers but also noticing how the volunteers themselves benefit hugely from the experience.

Over the years, we developed Good Hope Volunteers into a larger and more professional organisation. With our passion for communities, animals, and the environment, we have developed Good Hope

Volunteers into a top service provider in this field.

Since the onset of the world-wide COVID-19 pandemic in late 2019, a new challenge to sustainable tourism has been issued, and even more so to our projects. Some of them have had to close due to underfunding or lack of international volunteers.

Today we support around 30 projects in southern Africa. Most of them are able to welcome volunteers again; some are only available to volunteers who are fully vaccinated. If you are looking for a life-changing experience, then allow us to assist you in finding the most suitable project on our website and beyond.

"A passion for making a difference through promoting the welfare of others have always been innate for me from a very young age. Since I travelled extensively and relocated abroad, I consider myself fortunate to call Africa home. I represented Sub-Saharan Africa as a Cultural Ambassador in the United States of America for a year. Through this experience I have noticed the passion for goodwill and cultural exchange to be beneficial to a volunteer's personal growth and professional development. At Good Hope Volunteers, we care deeply about every individual volunteer experience. Opportunities in upliftment programmes are numerous and varied in Southern Africa.
