WELCOME

As one of London's most responsive colleges to the growing needs of employers, we offer the right skills, qualifications and training to aid you in the competitive job market.

By focussing on your individual needs with the best possible support, we help you get the most out of your time studying with us.

With more than 100 languages and nationalities represented at our campuses, we offer a truly international learning environment. Each of our campuses has a distinct identity informed by its surrounding community, and we take pride in being one of the safest colleges in London.

College has been a real investment in my life. I'll cherish every moment – the teachers, the students, the whole environment. There are not many colleges like this.

One way I would describe it is like a combination of a sixth form and college – you get the best of both worlds. On the one hand, it has the feel of a community-based institution; on the other it's a mature environment where you're encouraged to be independent – you have to be self motivated, but you really become an adult after studying here.

This college will help you find and make the opportunities to become a better student and person. It's taught me valuable skills; things I'll take with me for the rest of my life.

The tutors and teachers here are dedicated to helping you succeed – they supported me throughout my studies, especially when things were difficult. Their commitment, dedication and faith in me was a major factor in my success.

It's a fantastic institution to have been a part of and I would recommend it to anybody.

Shad Hoshyar
Student Governor 2013/14

Whether it's getting the qualifications to go to university or the technical skills to get into employment, we are here to help you succeed.

We don't just commit to excellence, we put it into practice every day and will do whatever it takes to give you the skills and confidence to reach your potential.

The College offers a large breadth and depth of courses, allowing you to choose the most appropriate and relevant one for you. We offer the tools and experiences you need to get to where you want to be, in line with your ambitions.

We work with businesses through our partnerships with the Confederation of British Industry and West London Business to design Higher Education awards, vocational courses and apprenticeships that give students the skills and qualifications employers need in their workforce.

We have a strong reputation and track record in aiding our students to go on to some of the top universities in the country or continue their higher education studies with us.

Don't just take my word for it. In this guide, you'll hear from our former students who experienced outstanding support and were able to find the career path they wanted or start their own business.

Choose to join them at the College. With your commitment, you will receive the support, guidance and encouragement needed to challenge and stretch you in order to achieve your goals.

Garry Phillips
Principal/CEO

MAKE THE RIGHT DECISION

We can assure you we not only take an interest in our students' educational success but also their general well-being while they're studying with us. We will work with you to ensure our students get the most out of their learning journey.

We provide:

- Regular communication
- Quality learning environments
- High safety standards
- Continuous progress monitoring
- Student support
- Clear progress routes

We employ an organisation-wide approach to ensuring our learners are able to work and develop in a safe, secure and inspiring environment. All of our staff have a duty of care towards all children and vulnerable adults.

To find out more about the support services we offer or to download our Parents & Guardian Handbook, please visit:

wlc.ac.uk/parentsandguardians

Equality and diversity

Diversity is the very fabric of our college. We welcome all students regardless of race, gender, disability or learning challenge, age, marital status, language, cultural, social or religious background and sexual orientation.

We believe everyone has the right to access the power of education, and we promote and support equality of opportunity in all aspects of college life.

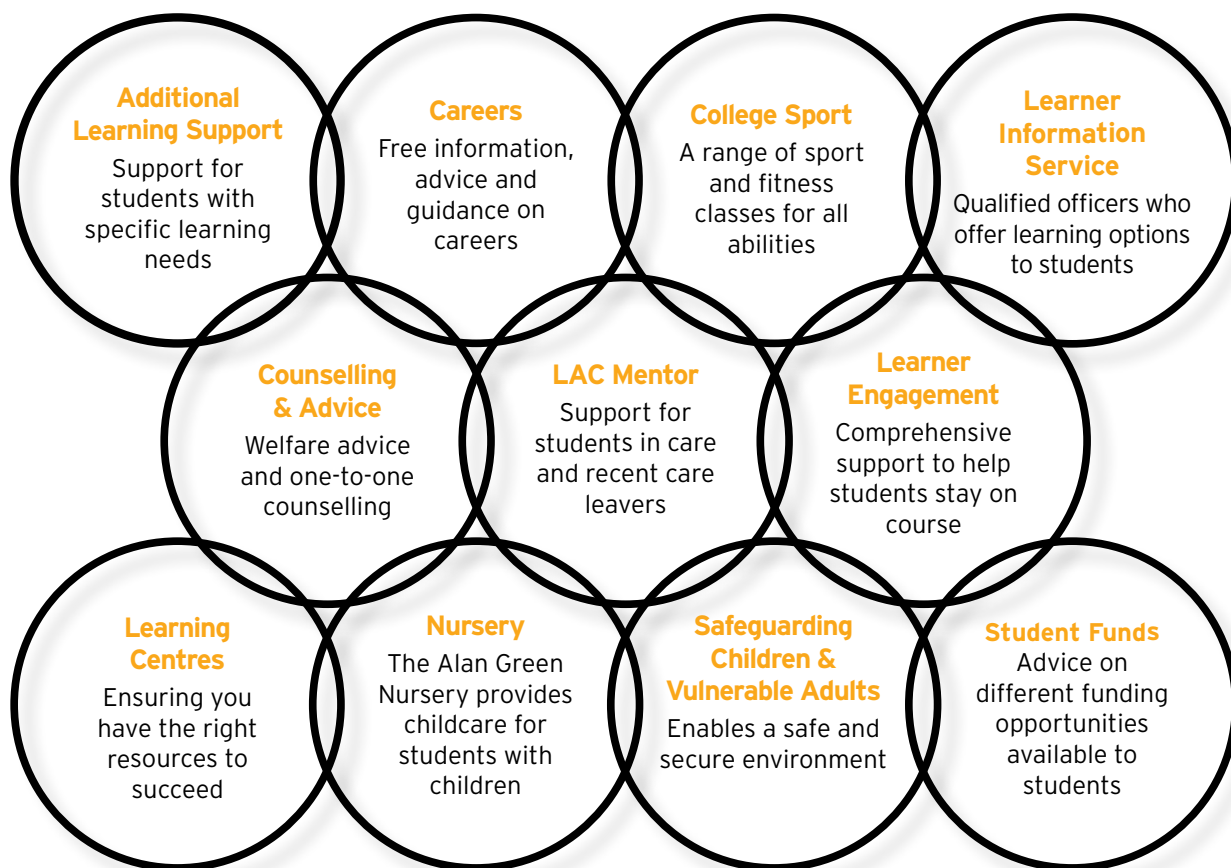

DID YOU KNOW?

9 out of 10 of our students enter further study or employment upon course completion.

SUPPORT IS CRUCIAL TO SUCCESS IN YOUR STUDIES

We offer a broad selection of award-winning support services to give all our students the best chance to achieve their goals.

STEFFAN BOWEN TALKS ABOUT THE ADDITIONAL LEARNING SUPPORT HE RECEIVED AT THE COLLEGE

.....

"I have autism and what led me to the College was the support they offered. I was looking for somewhere to start again, because it had been a tough few years in high school and I knew I just wanted to start a new chapter.

In the beginning I had support in every class to help me with the work. But by the end I had grown so much in confidence that by the time I got to my final year I didn't need in-class support.

I still had a mentor in my final year who was a great help. My mentor was very important during my studies because she kept things going, she gave me support, confidence, and she could see I had talent."

.....

Steffan

BTEC Extended Diploma in Art & Design
(Interactive Media)

MAKE THE MOST OF YOUR TIME WITH US

We have one of the largest and most active student communities in London with over 20,000 students from around the world enrolled on courses each year.

Taking an active role in college life will have a positive impact on your future. You'll grow in confidence, start to build an outstanding CV or personal statement, and gain the knowledge that'll prepare you for further study, higher education or employment.

At each of our campuses, the College's Student Union runs a dynamic programme of events and societies throughout the year, including guest speakers, trips, talent shows, careers fairs and more.

If you want to get involved in making things happen, you could stand in elections to become a representative of the Student Union.

If you're passionate about sport, you can work with the College's sports team to help students take part in the sport you love. The College offers a range of sports and fitness classes to anyone, regardless of their abilities. You'll organise sport and leisure events that promote physical well-being.

All of our full time courses provide opportunities to develop the skills, giving you the best chance of getting the career you want. Your tutors will also encourage you to take part in extracurricular projects where you can put your skills into practice. Our students have had success at national skills competitions, start-up projects and industry events where talented individuals are given a stage to share their skills.

We use our links with businesses around the country to hold workshops and events with industry leaders, which opens up the doors to work experience placements at major companies.

During your time with us, you can be sure we will encourage you, whether that's through tutorials or one-to-one support, to grab every opportunity available.

*The entry requirements listed are a guide to applications.

HOW TO APPLY

1.

CHOOSE YOUR COURSE

Check out our website, attend an Open Day or speak with one of our advisors to help you make the right decision.

020 8741 1688
wlc.ac.uk/courses

2.

COMPLETE AN APPLICATION FORM

Apply online or use the form attached at the back of this guide.

3.

ATTEND YOUR INTERVIEW

This will usually be at the campus where you'll be studying.

4.

ENROL

Enrolment will normally be in August, but check dates online.

5.

COLLECT YOUR COLLEGE ID

Once your enrolment is complete you'll receive your College ID card, which means you're ready to start learning.

He gained two A*s and an A in A Level Economics, History and Politics and is now heading to Cambridge University.

He gained two A*s and an A in A Level Economics, History and Politics and is now heading to Cambridge University.

AS/A2 LEVELS

Students who gain A Levels can go on to advanced level apprenticeships, higher education or employment.

wlc.ac.uk/alevels

AS/A2 LEVELS

Studying on an A Level programme at our Ealing and Hammersmith A Level centres will give you the preparation you need to progress on to university or employment. You will develop important transferable skills such as writing, research and analysis that you will use in whatever you choose to do in the future.

GCE Advanced Level (A Level) is the UK standard entry qualification to gain access to university. A Levels are recognised by universities across the world and by employers, making them a highly valuable qualification for students.

Success at A Level opens doors to the university and degree of your choice. Exam results across the College's wide selection of A Level programmes improve every year and many of our students gain entry to the country's most prestigious academic institutions.

From 2015 we will be offering students the chance to complete the Level 3 Extended Project Qualification. The EPQ gives each student a chance to undertake a self-directed and self-motivated project. Students choose a topic, plan, research and develop their idea and decide on their finished product. A project topic may be related to a student's main study programme, but should be broader in scope. This is an opportunity for students to extend their abilities beyond the A Level syllabus, stand out and prepare for university or their future career. It can also be used to earn extra UCAS points.

Next steps

Students who gain A Levels go on to advanced level apprenticeships, higher education or employment...

or employment.**

wlc.ac.uk/access

ACCESS TO HIGHER EDUCATION

Access to Higher Education Diplomas are nationally recognised qualifications that provide the knowledge and skills to go forward on to higher education. These courses are targeted at people who want to go to university but don't have the necessary level of qualification required to gain a place.

We offer a range of subject areas aimed at helping people to get into the university of their choice. Many of our students have gained entry to some of the country's top institutions and have achieved top class degrees upon graduation.

You should be aware that if you apply for this course you will be committing to a minimum of a further three years study after the completion of the Diploma. Applicants must also have at least a GCSE in English or maths (or equivalent qualification) to be eligible for the programme.

APPRENTICESHIPS

If you want to learn, obtain qualifications, gain practical experience as well as positive references, an apprenticeship is the choice for you. The skills and knowledge you acquire will prepare you for whichever career you choose.

All of our apprenticeships can lead into full time careers. Alongside the practical experience and industry knowledge, you'll also develop a solid grounding in maths and English. The majority of our apprentices go straight into full time work upon completion of their apprenticeship.

To apply for an apprenticeship course you must be employed for at least 30 hours a week within your chosen sector. We will seek agreement with your employer for you to attend regular training.

Next steps

Options for progression to employment include:

Plumber, Joiner, Carpenter, Caterer, Plasterer, Mechanic, Electrician, Hair Stylist, Builder, Customer Service Representative, Care Worker, Administrator, Air Steward, Facilities Manager, Concierge, Lab Technician, Residential Care Worker...

ART & DESIGN

**Animator, Games Designer, Graphic Designer,
Web Designer, Studio Manager, Curator,
Fashion Designer, Illustrator, Artworker,
Picture Editor, Photographer...**

wlc.ac.uk/artanddesign

ART & DESIGN

Based at our Ealing and Hammersmith campuses, our Art & Design courses are designed and delivered to encourage students' creativity, artistry and imagination, developing both practical and theoretical skills.

These courses are for you if you're interested in cutting edge digital work and traditional art and design activities. Students learn to design using various industry-standard software applications such as Adobe Photoshop, Adobe InDesign, Adobe Illustrator and Maya.

Course activities cover a range of traditional and new media techniques, skills and disciplines that may include (depending on course): drawing, painting, print techniques, typography, packaging, collage, sculpture work, mixed media projects, web design, animation, storyboarding, magazine design, 3D design, and advertising techniques.

Regular study trips are arranged to give our students a chance to experience the broad range of galleries and installations taking place in London. Courses also feature guest sessions from professional artists and designers.

Courses are available from Level 1 to 5, with students encouraged to progress through the levels as appropriate.

Next steps

Students progress on to further study, higher education or employment. Career paths include:

Animator, Games Designer, Graphic Designer, Web Designer, Studio Manager, Curator, Fashion Designer, Illustrator, Artworker, Picture Editor, Photographer...

MEET...

James Godman WorldSkills UK Finalist in Site Carpentry Studied Site Carpentry

Competing at SkillBuild

Everyone involved in the SkillBuild competition is chosen by their colleges, so the standard is high. Our tutor put me and a few others from our class forward to compete because he thought we were all really good at what we were doing. It was nice to be given the opportunity.

There were people from twelve colleges competing in the southeast event. It was a six hour task where you had to make a roof. You started off with a drawing of what you were going to build. Then you have to mark it all out on the timber and cut it all, then fix it all together. To win, it's got to be mil-perfect. Every millimeter you get wrong and out of line, you lose points.

Winning the competition

I'm proud of coming first. Hopefully it'll help in the future, it'll be something good for the career, one of those extra little things. Even just saying you've been involved in SkillBuild, that you were picked to go and compete is a privilege – not many people get the opportunity.

Support at the College

I've been to other colleges, but this one, your tutors give you that extra kick, more of a push to make you think that you can do it. That's not saying the other colleges don't – but this one, they go that little bit further.

Our tutor is always saying he wants to teach us to be better than him – it's inspiring and makes you feel good about your work. He just loves helping out people all the time and he wants to get everyone through their course. There are twenty of us in a class, but it feels like you're getting one-to-one tuition, the way that he keeps floating around and helping you out. It's really inspiring and gives you the confidence when you know you can do it all.

BUSINESS & RETAIL

Business, enterprise, retail, accounting and finance are at the heart of the global economy. Our courses balance theory and practice so you will be up to date with the needs of industry. We ensure you develop relevant and applicable skills by working with employers to develop industry tailored programmes.

Our courses will develop your knowledge, skills and understanding of commerce and the world of work. You will learn how organisations operate and what makes a business successful. You will also develop the skills you will need to start your own business or go forward on to higher education.

"The course has made me more passionate about opening up a nursery. I have a greater sense of the people I would like to employ. It makes me really keen to carry on the path that I am on, to achieve my long term goal. The teachers are fantastic, the resources are brilliant - anything you need, you can find it in the library, anything you need you can go to the teacher and ask them."

COMPUTING & ICT

Mobile Applications Developer, Games Designer, Games Developer, Network Engineer, Computer Service Technician, Systems Analyst, IT Sales Specialist, Technical Support, Software Developer, Software Programmer, Interactive Media Designer, Web Designer, Web Developer...

wlc.ac.uk/computing

COMPUTING & ICT

Do you have a burning idea for a new smart phone app but don't know where to start? Do you want to design and develop web sites used by potentially millions of people around the world? A course in computing and ICT is the first step to you achieving your goals.

Our teachers have years of industry experience and are accredited to deliver professional courses such as Comptia, Certified Internet Web Professional (CIW), Cisco and Java Programming.

Our courses cover software development, web design and IT hardware. You will develop applications across a range of platforms, build websites incorporating elements of the CIW programme, and develop a comprehensive understanding of networking and IT support using Cisco hardware in our labs. Professional courses on Comptia and Certified Internet Web Professional can be taken if you wish to pursue a career in networking or web design and development.

Next steps

Students progress on to further study, higher education or employment. Career paths include:

Mobile Applications Developer, Games Designer, Games Developer, Network Engineer, Computer Service Technician, Systems Analyst, IT Sales Specialist, Technical Support, Software Developer, Software Programmer, Interactive Media Designer, Web Designer, Web Developer...

wlc.ac.uk/engineering

ENGINEERING (ELECTRONIC & MOTOR VEHICLE)

Engineers are an essential and highly employable part of a country's workforce. Studying vehicle and electrical/electronic engineering at our Centre of Excellence will equip you with the tools to approach most work situations in a reasoned and analytic manner, as well as providing you with professional status in the electronic, electrical and motor vehicle fields.

Our courses will engage and inspire by showing you how many contemporary issues require logical and trained thinking in problem solving and diagnostics.

We have a range of full time programmes at various levels in which you will develop the skills needed to progress on to higher education or find employment. Classes are taught in modern well-equipped facilities with plenty of practical opportunities and, where possible, work experience. Our lecturers are committed to preparing you for the outside world with progression to either university or industry.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)

English for Speakers of Other Languages (ESOL) are programmes aimed at new speakers of English who want to gain a functional use of the language. Students develop their speaking, listening, reading, writing and study skills through practical, relevant and effective tasks.

Our teachers have a reputation for delivering high quality, tailored language programmes which give students the confidence and skills to take their personal lives, education or careers forward.

You will be assessed when you begin the course and will be expected to study between one to three years before acquiring the necessary knowledge, skills and qualifications to progress to Level 1 or 2 vocational qualifications or GCSE courses.

Next steps

Students continue studying at the College or find a job.

Ayesha Yeates Cabin Crew at Titan Airways Studied Cabin Crew & Tourism

Before college

Before college I was studying at sixth form, but I left after the first year because it wasn't really what I wanted to do. I knew I wanted to go into cabin crew, so I applied for the course at Ealing, Hammersmith & West London College.

I live in Essex so it was a big commute. The commute ended up being four hours every day to do this course, but it was something I wanted to do so I went for it.

Studying on the course

On the course you do a lot of practicals – the College actually has a room based on an aircraft, I think it's the only college to have one. You have to wear the uniform at college, and follow strict guidelines in terms of hair, grooming, exams, tests. Being cabin crew isn't easy, it's a very draining job. But on this course you get a real feel for what it's like to be cabin crew.

To be cabin crew you need to be adaptable, flexible, you need to be assertive, but also empathetic, compassionate. You need to be so many different things: a nurse, a parent, a firefighter, a waitress on board. So you have to be adaptable and flexible. In the course you'll do aircraft demos, you'll do emergency procedures. You do everything you need to know for the job. I don't think I would have been able to get the job at Titan Airways without what I learned on the course.

Get ahead of the competition

I gained so much confidence from the course and you need confidence to work for an airline. I was so shy when I started out and now I'm completely different. Still a bit shy but so much more confident. I definitely got that from being at college.

The College's travel and tourism courses set you apart from the competition. Students here are very passionate about the industry and their careers. I'd tell anybody who wants a job in the industry to study first, and to do all the preparation. Everything you'll study in the course, you'll need for when you're cabin crew.

GCSEs

Most GCSE students progress within the College on to further education such as A Levels and BTECs. Other students find places on apprenticeship programmes or gain access to employment.

wlc.ac.uk/gcses

The General Certificate of Secondary Education (GCSE) is the standard qualification taken by students aged 14-16 in secondary education in England, Wales and Northern Ireland.

The College offers a number of GCSE courses to students of all ages. Many students progress within the College on to further qualifications such as A Levels, BTECs or apprenticeships. Some find the course provides the boost to their key skills required to secure employment.

GCSEs are recognised by both education institutions and businesses across the world. Leading universities often take into account performance at GCSE level, sometimes expecting applicants to have a high proportion of top grades.

wlc.ac.uk/hairandbeauty

HAIR, BEAUTY & COMPLIMENTARY THERAPIES

The hair and beauty industry is a rapidly growing creative sector and our courses focus on developing the relevant specialist and professional skills for a successful career. You will be taught and assessed by highly qualified staff who have a wealth of up-to-date commercial and specialist teaching experience.

Working in our commercial hairdressing salons or professional treatment rooms, you will gain hands on experience to prepare you for the workplace. There is also the opportunity for work experience placements thanks to our strong links with businesses throughout the sector. Previous students have gone on to open their own salons and many employ former students as stylists and therapists.

Students in the hair and beauty department are ambassadors for the College, taking part in regional and national hair and beauty competitions, and by offering a wide range of treatments to the public at discounted prices. Students benefit from working with paying clients in a realistic work setting, under the supervision and guidance of our staff.

IELTS™

IELTS Test Centre
Hammersmith & West London College

.uk
015

At our conveniently located IELTS (the International English Language Testing System) test centre, you will be taught by experienced and committed teachers who have each completed an IELTS teacher-training course, covering the four key areas of listening, reading, writing and speaking.

Depending on your needs and the time available, you can prepare for the test in one day, one week, two, four or twelve weeks. Courses are available Monday to Saturday, morning, afternoon and evening. We can even tailor a course to meet your individual needs.

IELTS is designed to assess the language ability of candidates who need to study or work where English is the language of communication. IELTS conforms to the highest international assessment standards and is validated by the British Council.

Next steps

The IELTS Test opens doors to educational and professional opportunities, as well as being a requirement for some immigration/emigration purposes. Universities will take an IELTS score as an indicator of your language proficiency. If English is not your first language, consider taking the test to show you are ready to study in the UK at Access, Foundation, Graduate or Post-graduate levels. Many nurses, doctors and lawyers from overseas who want to pursue their careers in the UK take the test as well.

Naim Salihu

**Captain of BCS National Championships London Team
Studied Extended Diploma in Sports**

Discovering basketball

I started off trying a few different sports. I thought about football, boxing, but they just weren't right for me. I was then given a chance to take part in a basketball camp over the summer when I was in year 8. And after that I just had a thrill for the game. When I finished year 11 and my GCSEs, I knew I wanted to go to a basketball academy. A few of my friends told me about the College's programme, so I came here and it was good for me.

Integrated programme

One of the main reasons I came to the College is because I knew I would get it all in one – it's all integrated. I get the top quality coaches from people who care and top quality education from the teachers here. The sports manager won't let you skip a lesson and then come to training afterwards – it doesn't work like that. We're student athletes.

Improving

One of the main things I've improved at the Academy is my basketball IQ, so my awareness on the floor, where everyone has to be. Also my shooting. Before joining here I wasn't really a great shooter. I've also improved in terms of management. I've learned that everyone is different and so everyone has to be treated differently. As captain of the team, there are some people I have to speak to them in a certain way, very calmly, and with some people I have to be stern to make them realise I'm serious. Everyone is different and you have to approach them in different ways to get the response you need out of them in games.

Hopes for the future

Hopefully, I'll be a professional basketball player in five years time. I want to be able to say that I came through this programme and carried on with basketball. A lot of people finish their college years or academy years, and there's not really anything for them. So you really have to grind it out and get into teams because you're going to be the young buck coming through, so you've really got to go for it. But all going well, I see myself playing professional basketball, and hopefully in Europe.

INCLUSIVE LEARNING

The Inclusive Learning Department offers a wide range of courses to students with a diverse range of needs and aspirations.

wlc.ac.uk/inclusive

INCLUSIVE LEARNING

Based at our Hammersmith and Southall campuses, the Inclusive Learning Department offers a wide range of courses to students with a diverse range of needs and aspirations. Our high needs specialist programmes are designed to meet the needs of students with profound and multiple learning disabilities (PMLD). We use resources that are bespoke, relevant and sourced to focus on our learner first ethos.

Our students learn by hands-on experience and develop skills, knowledge and attitudes that can be used throughout life. We encourage participation in everyday situations to give our students the confidence to make the most of opportunities as they transition into adulthood. Our students also become community aware by participating in activities and projects outside of college. We aim to stretch and challenge each student so they push themselves to become the very best that they can be.

The College's teaching staff will work closely with you and your parents/carers to help you achieve planned learning goals. Other support available includes group and one-to-one learning support and personal care where student dignity is paramount. This includes access to personal care facilities with a range of equipment such as hoists and physiotherapy beds.

The department also works closely with national organisations such as Ambitious About Autism, Mencap and Scope, who work closely with our teams to develop best practice and support positive outcomes for all students.

What qualifications are available?

Our programmes focus on Independent Living Skills and Skills for Working Life. Nationally accredited qualifications recognise a range of skills, knowledge and attitudes you have developed. Amongst these will be vocationally focused programmes in; Retail, Hospitality & Catering, Sport, Performing Arts and Multimedia. All learners will develop English, maths and ICT skills.

MEDIA

**Film & TV Producer, Director, Editor, TV
Studio Manager, Screen Writer, Journalist,
Broadcast Journalist, Picture Researcher,
Advertising Executive, Communications
Manager...**

wlc.ac.uk/media

MEDIA

The creative industries are worth over £70 billion a year to the United Kingdom economy with 1.4 million jobs in the sector alone. Take one of our creative media courses to give you the tools to enter this rapidly growing and exciting industry.

Based at our Institute of Media in Ealing, future directors, television producers and media stars develop both practical and theoretical skills.

On our A Level courses, students examine a range of media forms, such as film and TV, and analyse how media products are created to achieve particular effects, points of view and certain meanings.

For something a little more hands on, you can take one of our production courses. You will use our industry standard equipment and resources including a TV studio, to develop a portfolio of work to help you gain employment or move forward to further study.

Gaining experience of a range of cultural contemporary events is important for anyone interested in a career in the creative sector. We organise a broad range of enrichment trips to give you up-to-date knowledge and relevant experience of the industry.

Next steps

Students progress on to further study, higher education or employment. Career paths include:

PERFORMING ARTS

**Dancer, Choreographer, Actor, Soundscape
Artist, Producer, Sound Engineer, Singer,
Theatre Director, Journalist, Stage Manager,
Theatre Producer, Musician, Set Designer,
Music Producer..**

wlc.ac.uk/performingarts

PERFORMING ARTS

Develop your confidence and creative skills as an actor, dancer, musician or producer and discover the fascinating world behind the scenes. You'll need to be creative, outgoing, practical and able to work individually as well as part of a team. Our courses, designed in partnership with Hammersmith's Lyric Theatre, will give you the creative, academic and business skills to succeed in the challenging creative jobs market.

You will benefit from using our modern Performing Arts Centre complete with theatre, rehearsal spaces, dance studio and music technology facilities, and you'll get to take part in performances, workshops and residencies in local venues. You will also get to attend workshops and performances from visiting companies and stars as well as take part in projects from our learning partners Roland and Avid.

Stars such as David Ajala, Terri Walker, Estelle and Marcus Brigstocke have studied on performing arts courses at the College and the on-going popularity of our courses demonstrates the high standards of both our teaching and facilities. You can also record, produce and distribute records through our own record label Blastproof Records.

Next steps

Students progress on to further study, higher education or employment. Career paths include:

Dancer, Choreographer, Actor, Soundscape Artist, Producer, Sound Engineer, Singer, Theatre Director, Journalist, Stage Manager, Theatre Producer, Musician, Set Designer, Music Producer...

DID YOU KNOW?

The Prince's Trust supports
13 to 30 year-olds who
are unemployed and those
struggling at school and
at risk of exclusion.

PRINCE'S TRUST

Prince's Trust

Prince's Trust programmes give vulnerable young people the practical and financial support they need to stabilise their lives, while developing self-esteem and skills for work.

As London's highest performing Prince's Trust development programme, we offer 12 week personal courses tailored to help each student move their lives forward. The programme is free if you are aged 16-25 years old, unemployed, and want a challenge that will change your life.

You will take part in practical projects to build your skills in project management, budgeting, problem solving, and there is the opportunity to gain work experience in a placement of your choice. We also offer an outward bound team building residential away from London to help you build essential teamwork skills.

At the heart of the programme, you gain qualifications to help you take the next step in your development (Prince's Trust Award and Certificate in Employability, Teamwork and Community Skills Units).

Over 80% of our team members go on to employment, further education or training. The programme does not affect your benefits (Jobseekers Allowance), while travel expenses and childcare costs may be covered.

Next steps

The programme helps students get into employment, education or training...

For more information about the Prince's Trust visit www.princes-trust.org.uk

"It changed my life more than I could have imagined. I thought it would build my confidence and my CV, positive things like that, but I didn't realise how much it would help me as a person, emotionally. I've got a lot more confidence now, I believe in myself so much more and I have a much clearer understanding of what I want to do. I have focus."

PUBLIC SERVICES

**Police Officer, Firefighter, Paramedic,
Criminologist, Customs Officer, Army Officer,
Prison Officer, Social Worker, Navy Officer,
RAF Officer...**

wlc.ac.uk/publicservices

PUBLIC SERVICES

Develop your interest in human behaviour, leadership and team working while gaining the skills and knowledge required by employers in the uniformed public services. This course is designed to prepare you for a career in a range of public services including the police, ambulance and fire services, the armed forces, prison and security services or local and central government such as HM Revenue and Customs.

You will develop a broad understanding which is relevant to the widest career opportunities. Core units include: Team Leadership, Understanding Discipline, Government Policies & Citizenship and Contemporary Society. Specialist units can include: Physical Preparation & Fitness, Command & Control, Understanding Aspects of the Legal System and Law Making Processes.

There are no formal exams but there will be continuous assessment throughout the course.

Next steps

Students progress on to further study, higher education or employment. Career paths include:

Police Officer, Firefighter, Paramedic, Criminologist, Customs Officer, Army Officer, Prison Officer, Social Worker, Navy Officer, RAF Officer...

MEET...

Nara Simonyan Founder of Nara Health and Beauty ESOL and beauty therapies alumni

Before College

I am a fully qualified dermatologist. I studied in Georgia, first medicine and then a specialisation in dermatology.

When I first came to the country I hoped I would continue as a dermatologist. I hoped that I would study the language and I would practice medicine. I did some volunteering work in St Mary's Hospital to be as close to medicine as possible. But when I applied, I was rejected. They said I needed to do everything again – all of my medical training. And I thought it was too late. I had two boys to bring up and there was simply no time to retrain.

So I thought the closest I could get to the skin was to study beauty therapy. I decided to study and get a job as quickly as possible.

Studying at the College

The move was a huge change in my life. I did Level 2 and Level 3 beauty therapy at Hammersmith in 2007, but I originally joined the College as an ESOL student in 2000. When I first came to the country, I couldn't speak a word of English, so the course helped me to settle.

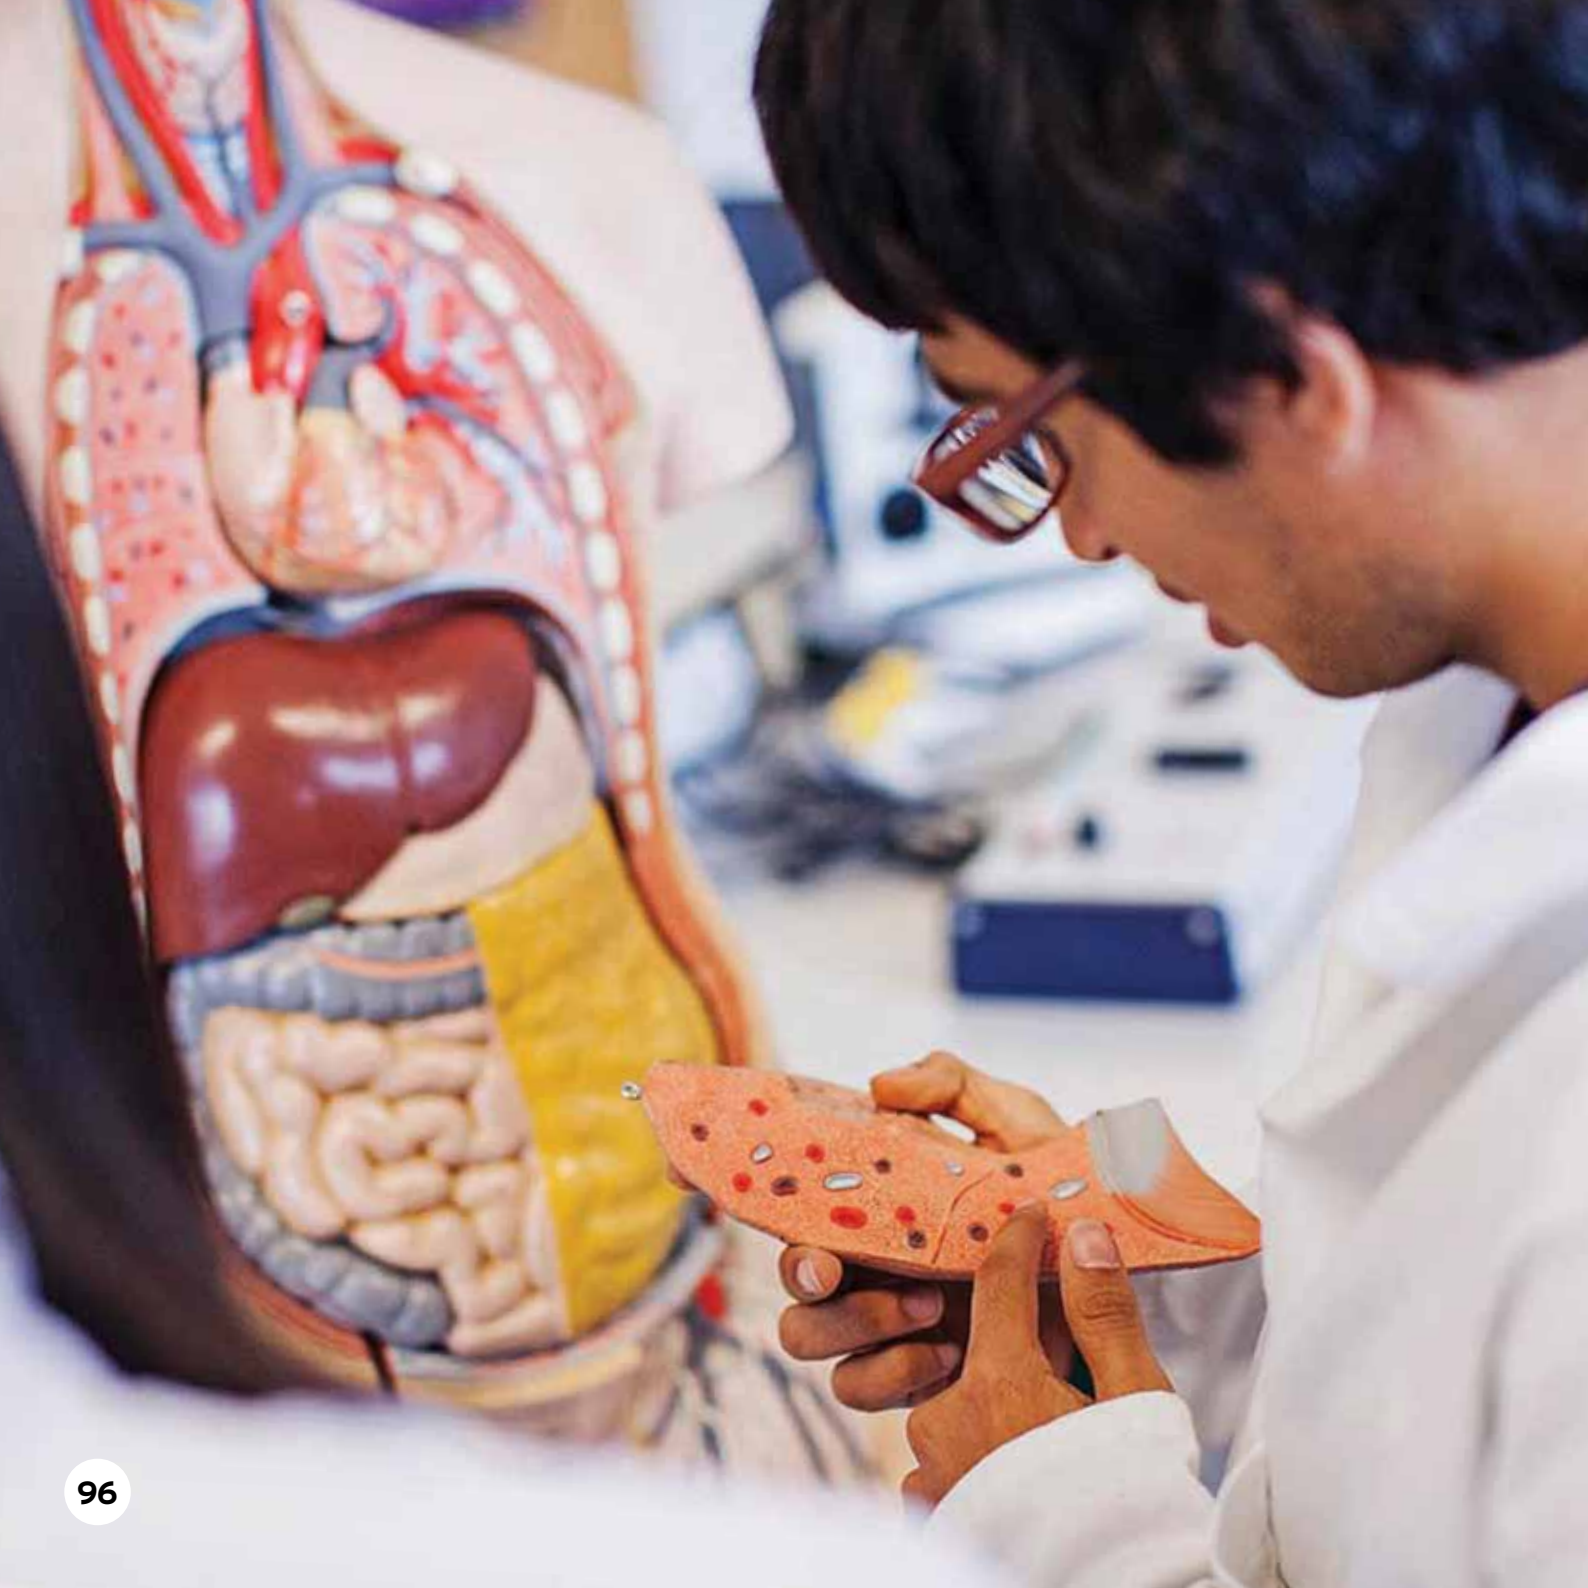

I enjoyed the beauty therapy courses at Hammersmith a lot; I don't think I missed a lesson. I had lovely teachers and we even ended up being friends as well. It's a very friendly college.

Support at the College

The support the teachers gave all the way through my course was amazing because they understand where you are coming from. For example, in my case, they knew English was not my first language, it was my second language and so they helped with that. They didn't push too hard or demand too much, they just taught slowly, step by step. They explained everything.

My time at the College opened up my eyes to the beauty market, because the beauty industry was a closed world to me.

Biomedical Scientist, Science Technician,
Chemical Engineer, Forensic Scientist...**

wlc.ac.uk/scienceandmaths

SCIENCE & MATHEMATICS

Our courses engage and inspire by showing you how many contemporary issues require a grasp of fundamental scientific and mathematical ideas. Studying science will broaden your understanding of the world around you and will equip you with the skills needed to approach most matters in a reasoned and analytical manner.

We have a number of full time programmes at various levels that will enable you to develop the skills needed to go forward on to higher education or employment. Classes are taught in modern well-equipped labs with plenty of practical opportunities and, where possible, educational and field visits. Our lecturers are committed to preparing you for your exams, and will support you in all areas of your study.

SPORTS ACADEMY: BASKETBALL, BOXING, FOOTBALL

The College's Sports Academy gives students with a talent in sport the chance to pursue their sporting ambition while completing a full time sports qualification. We currently offer academy programmes in basketball, boxing and football, and we have plans to launch a cricket and rugby academy in the near future.

As part of the programme, learners receive a minimum of 10 hours coaching per week. On top of this, we offer our student athletes a number of employability qualifications to not only help them progress as athletes, but to give them the chance to establish a career in the sports industry.

As a member of the Sports Academy, students work alongside professional coaches and strength and conditioning experts. Academy members are ambassadors for the College, competing in elite college leagues, cups and competitions. Academy students also take part in a number of specialised field trips, visits and tours around the world to aid their professional and personal development.

PROGRESS ON TO ONE OF OUR HIGHER EDUCATION OR PROFESSIONAL COURSES

Higher Education is an investment in your future. Graduates enjoy better quality jobs, fill the most important positions in society and earn twice as much as non-graduates on average. There are many reasons to study a higher education course with us.

Our small class sizes, affordability, comprehensive support services, dynamic student community, quality facilities and convenient location make us the ideal setting for students who want to make real progress.

We offer a range of courses across many subjects areas and a number of routes to advance on to higher level qualifications through our successful partnerships with universities. 9 out of 10 of our students move on to further study or employment.

Our students love to be here. According to the National Student Survey, 88% of our students were satisfied with their course, which makes us one of the highest rated colleges in London.

Accelerate your career development by studying a professional accredited qualification.

We are a one of the largest providers of professional courses in London for people looking to boost their career in leadership and management, human resources, accountancy, procurement and other fields.

Our west London campuses makes us easily accessible from your place of work. Students on our courses range from career starters to senior managers, and are linked by the determination to gain the confidence to move their careers and businesses forward.

ENGLISH LANGUAGE TEACHING (CELTA/DELTA)

Certificate in English Language Teaching to Adults (CELTA)

CELTA is the internationally recognised Level 5 initial teaching qualification for teachers of English. Each year, over 10,000 people successfully take the Cambridge CELTA making it the most popular initial teacher training course in the world.

Both our full time intensive and part time courses are demanding, and require full commitment to ensure completion. In return you get a first rate qualification and a training which provides you with the knowledge and tool kit of classroom techniques to help you in your early teaching career.

Diploma in Teaching English to Speakers of Other Languages (Delta)

Delta is the gold-standard Level 7 award for teachers of English language and is available for both native and non-native speakers of English. This master's level qualification provides the underpinning knowledge to be an expert in the classroom. As such, it is a requirement for anyone who wishes to pursue a career in ELT, be it as a teacher, manager or trainer. This course is the natural progression for anyone who has completed the CELTA or Trinity Certificate TESOL.

Although this is a highly demanding course, it rewards candidates with both practical classroom techniques to improve teaching and learning and the knowledge and understanding to make judicious decisions about which techniques to use in your classes to maximise student progress.

Choose to study at Hammersmith

Hammersmith Campus is the largest of the College's campuses and offers a broad range of full and part time courses from entry level to postgraduate. Sitting on one of London's main transport routes, the campus is ideally located for students looking for easy access to central London. Hammersmith itself is a busy area of activity featuring many amenities and attractions. The campus sits next to some of the city's leading businesses and is the ideal place for students looking to study in a mature learning environment.

**wlc.ac.uk/
hammersmith**

Choose to study at Ealing

Located next door to the world renowned Ealing Studios, Ealing Campus houses the College's Institute of Media, which offers courses across all areas of the creative industries. The campus, overlooking the popular Walpole Park, has a long educational heritage as the former home of the Ealing Grammar School for Boys, and boasts an alumni including tennis legend Fred Perry and media mogul Jamal Edwards. Ealing Campus also offers a wide range of other programmes, and has an excellent reputation for English language (ESOL) courses.

**wlc.ac.uk/
ealing**

Choose to study at Southall

With its proximity to Heathrow Airport, Southall is an increasingly popular area of London. Southall Campus is the base of both the College's 14-16 Department and self-contained adult learning facility. Following a significant investment over the past five years, the campus is equipped with industry standard technology and offers courses in areas such as construction, engineering, hospitality and catering, and automotive. Students at the campus can take advantage of the nearby Broadway shopping area where they'll find the hustle and bustle of a lively and diverse local community.

**wlc.ac.uk/
southall**

Choose to study at Acton

With a deep local history in the construction and manufacturing industries, Acton Campus is a Centre of Vocational Excellence (CoVE) in construction crafts. The campus offers an extensive range of courses taught in purpose-built, industry standard workshops. Students can also enrol on programmes in engineering, electronics, motor vehicle and English for Speakers of Other Languages (ESOL). The campus has strong links with local business, which are used to give students access to work placements and employment upon course completion.

**wlc.ac.uk/
acton**

Ealing, Hammersmith & West London College supports equal opportunities and diversity, and this guide has been produced in line with current disability legislation.

On request, the College will produce this guide in other formats.
For more information please contact Learner Information Services at:

Telephone: **020 8741 1688**, Email: **lis@wlc.ac.uk**

When you enrol with us you will be required to read and sign a student contract that states you agree to follow the College's Code of Practice.

AWARDS & ACCREDITATIONS

Disclaimer:

While we make every effort to ensure the accuracy of information contained within this guide, information, including course details, is subject to change throughout the year. We endeavour to accommodate students at their preferred campus, however, depending on class sizes, students may be required to study at an alternative campus.
