# bay language institute

Explore English | Discover South Africa  
[baylanguage.com](http://baylanguage.com)

### Your language school

Classes of eight students or fewer, dedicated, enthusiastic teachers, and personal attention in a warm, welcoming environment.

And, a location just 100 metres from the beach, African wildlife minutes away, the endless landscapes of the Karoo semi-desert to explore, rural African villages in the Wild Coast region to experience, the urban city and vibrant townships of the Nelson Mandela Metro to discover.

### A warm welcome

Family-owned and managed, small enough to focus on every student, friendly staff and a warm, welcoming atmosphere, Bay Language is conveniently situated in the seaside suburb of Summerstrand, with shops, cafés and restaurants nearby.

### Less is more

Bli offers small groups and individual attention, with trained, experienced staff committed to an effective, fun learning experience. Our school offers exam preparation, English for business and aviation, general English, in short and long stay formats, as well as in-class TEFL courses.

### **To do or not to do, that is your question**

How much you can see and do is limited only by your imagination. Port Elizabeth offers a variety of pubs, clubs, restaurants and access to a wide range of outdoor activities, including bungy-jumping and sky-diving, wildlife interaction, national parks, surfing, diving and professional golf lessons - enough to satisfy anyone's needs.

### **Do for others as you would for yourself**

Add value to your stay and offer something more to those less fortunate, or help with the conservation of Africa's wildlife and nature. Bay Language works with verified service providers, offering a wide range of volunteering activities as well as demi-pair packages.

### High flyers

Bli Aviation English courses, designed to ensure compliance with the English language proficiency requirements for flight crew as laid down by the International Civil Aviation Organisation, enjoy a reputation for quality in the local aviation training sector. We have more than five years of experience in Aviation English training and assessment, and design tailor-made courses when required. Quality and efficiency are key in this field.

### Exploring English

A unique product in a unique area, Exploring English explores the wildlife, African culture & scenery of the traditional rural areas of the Hogsback and Wild Coast, the Karoo semi-desert with its endless plains, incredible stargazing and fascinating fossils, and the forests, mountains and adventures of the Garden Route while studying and practicing English. Other packages include English & Golf, English & Surfing and English & Diving – all tailored to your needs.

### Your home away from home

So, it's your choice: a room in our small, comfortable residence just 100 metres from the school, or a host family. With one superior en-suite room and six standard single rooms, a comfortable kitchen, lounge, garden and swimming-pool, and easy access to the supermarket and restaurants next door, the residence offers excellent value for money. Or choose to live with one of our carefully-selected English-speaking host families, and practice your English in an informal and friendly environment every day.
