Aims of the programmes and lesson content

Our aim is to increase confidence in spoken English and develop fluency as well as provide enjoyable, useful and high quality programmes for children and adults. We teach structured and well planned classes which include communication games, drama, debates, structured conversation and creative activities. The lessons practise all four skills, develop grammar and expand knowledge of the language. The students will also get the opportunity to learn about and aspects of British culture. The students learn the language in a natural and relaxing environment. The lessons are adapted to the age and ability of all students. We have classes for 5 – 7 year olds, 8 – 11 years, 12 – 17 year olds and adults (if required).

The Heart of England Study Programmes

Our students are sent a **pre course grammar test** and then their oral skills are **tested at the beginning of their course** and on the first day of each week to **monitor their progress**. The younger students are encouraged to take part in our **weekly presentation sessions** on a Friday where students build their confidence in the spoken language. Classes allow students to **quickly feel at home and be able to become independent and confident**.

What people are saying about us?

I think that our summer camps were fantastic because we have had a lot of fun while we met other families and students. As there were a lot of nationalities of students to help to continue practising English. Also the Leamington city is quite safe and nice to welcoming foreign English students. Warwickshire is a very nice and interesting region in England with lots of things to visit and to do, and the people are also very enjoyable and nice.

It was not easy to let two young people leave abroad, take the plane only and not having a framing like the previous year. Fortunately we could count on you and Louisa.

Your serious and your professionalism reassured us, and we knew that thanks to you our daughters were in security.

I wanted with my wife to thus thank you still for all that you did for them: security, environment, framing, activities, your kindness and of course teaching of English.

We can advise with all parents and their children to come to learn English in your school in all confidence.

It is the second year that I recommend the Heart of England School. My nephew and his friend enjoyed the lessons, teachers are open and welcoming, afternoon activities fun and recreational. I would definitely recommend again.
