## SCHOOL CHARACTERISTICS

TLCdénia, which has more than 30 years experience, is an independent language boutique school with high quality premises but still in keeping with the local character. We pride ourselves on providing personal service which allows staff and teachers to know the students as individuals and to be familiar with the family backgrounds. Small classes allow teachers to tailor their lessons and styles to meet the needs of individual students. They are more likely to notice any changes in behaviour or performance immediately and be able to take the necessary steps to address these issues right away before they become big problems. We can provide the proactive quality assurance that many parents seek for their children and their own relationship with a school. Studying Spanish in Dénia is an unforgettable experience so everyone wants to come back!

## Methodology and school

### FOR ADULTS:

Our methodology is based on a combination of several approaches, which centre on communication skills. We follow “Spanish for foreigners” guidelines which are structured according to the various levels stipulated by the European Framework and “Instituto Cervantes”. We offer all levels: A1-A2-B1-B2-C1-C2.

### FOR CHILDREN AND TEENAGERS:

We can offer any level required but the classes can also be organised so that they follow the children’s current school curriculum. Children are able to bring their own material. Multimedia material is also available as an optional activity.

### COMMUNICATIVE METHOD:

The basis of our methodology is communication. Our objective is that the student will be able to use the new knowledge in the correct way. In view of this, as well as studying grammatical structures and linguistics, we stress the necessity of achieving communicative competence.

To reach the goals of the students the school has developed a methodology based on the functional use of the language and by the end of the course the student will have learnt, not only about the culture, but also about the social life offered in Spain.

## THE CITY OF DÉNIA

Dénia is an enchanting and friendly town situated on the Mediterranean coast between the cities of Alicante and Valencia. Among the many benefits of this area we would like to highlight the 322 sunny days a year and an average temperature of 18° C or 65° F. The town has a resident population of approximately 50,000 inhabitants. Although during the summer months many more people, of all nationalities, come to enjoy this sunny area.

Dénia has 20 kilometres of coast. To the north, fine sandy beaches; to the south rocky, precipitous beaches, such as Las Rotas Beach, which has a great many small coves and areas of great beauty. Every year these beaches are awarded the European Union blue flag, which is only given to clean and well equipped beaches.

This area evokes previous times and cultures which remind us that Dénia has been ruled by the Moors, Romans, Carthaginians and Iberians. As proof of the constant passing of civilizations we now enjoy the examples of architecture which have been left, the best of which is the magnificent castle overlooking the town.
