A Unique experience – Juliane from Germany

If you are planning to study abroad you should come to Unique New Zealand. It's a really good school with excellent teachers and small classes. I learned so much and had a lot of fun.

My homestay family were so nice and warm-hearted. They became like a second family to me and we are still good friends.

My time at Unique marked the stepping stone for my move to New Zealand. I successfully completed a Master's Degree at AUT University in Auckland and have now settled permanently in New Zealand.

At Unique I enjoyed the classes and made friends with other students from all over the world. The staff were always very helpful.

After graduating from Unique I started high school in Auckland. It wasn't difficult for me because I had already studied English at Unique and also learned about life in New Zealand. I highly recommend Unique New Zealand. It's a great place to study.
