MALAGA

The sunniest place in Europe

- > Malaga is the capital of the 'Costa del Sol' (one of the most important cities in Spain).
- > Amazing weather: summer 27°C (80.6°F), winter 17°C (63°F).
- > Beautiful beaches (130 km of coast).
- > Excellent transport infrastructure: international airport (AGP), high-speed train, seaport, bus, underground and bike lanes.

UNIVERSITY OF MALAGA

The University of Malaga (UMA) is a dynamic and innovative university committed to achieving academic excellence through the development of international talent and investment in research.

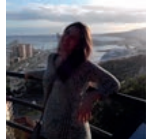

The University of Malaga has the highest number of international students as compared to other universities in the south of Europe.

Yu Quiao (Taiwan)

Having been in the school for three months, I have enjoyed the class so much, and learned more than I expected.

Ángela Bello (Italy)

I really enjoyed my time at CIE and if I had to choose the best part of all I would go with the people who work there: everybody tried their best to be helpful and to make us feel at ease.

Hazel Harrison (United Kingdom)

I loved the teachers. They made me feel welcome and accepted and I think they motivate students to participate a lot in class.

ACTIVITIES

We offer a wide variety of activities for students included in the price of the courses: Spanish film sessions, talks on topics related to Spanish culture, reading workshops, parties, guided visits to emblematic sites in the city, museums, monuments, etc.

All kind of activities will be planned for groups of tailor-made programmes when requested.
