“What I love about UT most is its ‘volunteer spirit.’ People here are really nice and helpful when you need assistance with something. The atmosphere is friendly and comfortable; this is one reason I stayed in this college. ‘Go Vols’ has now become one of my favorite phrases to say!”

Mengjie Chen

“One thing I like about UT is that it is in Knoxville, TN which has a relatively low cost of living and is very affordable for students. Knoxville is also situated at the base of the Great Smoky Mountains National Park which has lot of opportunities for relaxing out in nature. UT also has world class athletic, recreational and academic tutoring facilities for the overall development of the student. But the best thing about UT is its football and basketball seasons. Students here love sports and are proud of their UT team and this makes for a great college experience. I love UT and I will be a ‘VOL’ for life.”

Rajesh Jena

“What I like the most about being a student at UT is the education program. The program that I am in prepares me for the next step in my intended career path. The program does not only prepare me for my career but also teaches me to always have a backup plan, and helps me be sure of what I really want for my career. The professors are very nice and if I need help, they are just one question away. My adviser has helped me so much in my college career!”
