Company overview:

Tax, labor and accounting consultancy firm. This is also part of a law office specialized in Business Law. At the office we have a different working approach; instead of limiting ourselves to accounting and pay slips, we prefer to work closely with our clients, getting to know their business needs. By doing this our team provides optimal service while saving vast resources and a maintaining proven record of solving problems efficiently.

The intern will collaborate with the financial department's daily tasks, manage some customers' project operations and report on economical markets. In general, the intern will collaborate with and assist in all the different tasks with all team-members, depending on the company's current needs, projects and client requests. Additional tasks may arise during the development of the internship and also depending on the interests
