your personal interests, goals and dreams.*

ENGLISH AND FRENCH COURSES

Most students choose general English or French study and then pick and choose their courses to build their own unique schedule. This option allows you to build fundamental language skills by choosing Foundation, Communication or English for Academic Purposes courses, or to focus on unique language learning topics in our Creative and Cultural Language courses.

HOW IT WORKS

1 Choose your schedule & decide how many weeks you want to study

ILSC schedules typically include 1, 2 or 3 different courses per day. The more courses you take, the quicker you will progress.

2 Choose your courses on your first day

Find out which courses are running on your first day and choose the ones that interest you. ILSC offers courses in areas like Communication, Business English or French, Academic and Test Preparation, and Creative and Cultural Language.

3 Choose new courses every session

At ILSC, a new session starts every 4 weeks. Choose new courses, or continue taking the ones you love at a higher level.

LANGUAGE PROGRAMS

Some students are looking to achieve a defined goal and prefer to take one of our preset Language Programs. Programs are packages of specific courses that allow you to learn with other students who share the same goal as you. You can trust ILSC's curriculum experts to design programs that will help you achieve success.

Do you want to transfer into a Canadian, American or Australian University, college or TAFE? Gain specific business language skills? Target a language test score like IELTS, TOEFL, Cambridge and more? Or combine language learning with adventure? We're sure to have a program option that fits you!

In the future, I would like to work in management at deluxe properties. I decided to attend college in a foreign country to obtain international experience, and also, I find it very interesting to be able to meet people from all over the world and learn about their traditions and customs.

The training I'm receiving at Greystone College will help me reach my career goals. I am learning lots of valuable things in class and I get a chance to see real-life examples when our class goes on field trips.

WORK & STUDY: CO-OPERATIVE EDUCATION & OPTIONAL INTERNSHIPS

Greystone College offers a range of designated co-operative education (co-op) programs in business and tourism and hospitality, and Australian ILSC Business College students can add optional internships to any business program for an additional fee. Completing a co-op term, or internship in a position related to your field of study will help you integrate your learning, and provide real-world job experience, references, industry connections, and confidence!

Both colleges have teams of experts who support your success through every step of your co-op or internship journey. You will attend a program orientation, and one-on-one meeting with your co-op or internship coordinator, and will connect with them throughout your experience.

GREYSTONE COLLEGE BUSINESS CO-OPS AND ILSC BUSINESS COLLEGE OPTIONAL INTERNSHIPS

- Placements are in unpaid entry-level positions in areas like administration, data entry, reception, marketing and more
- Business co-op and internship service includes a guaranteed interview

GREYSTONE COLLEGE HOSPITALITY CO-OPS

- Placements are in paid entry-level positions in areas like guest services, front desk, food and beverage, retail, and more
- Hospitality co-op students typically find their own placements, but can opt to upgrade the service to include a guaranteed interview

WHO SHOULD TAKE A CO-OP PROGRAM OR OPTIONAL INTERNSHIPS?

Choose an internship or co-operative education if you want to:

- Build networks with Canadian or Australian employers in your industry
- Apply classroom learning in a real-world setting
- Add relevant job experience and references to your resumé
